

ClarityMax™ multi-purpose cleaning action cleans ponds with an unprecedented combination of activated barley, natural bacteria, enzymes and a powerful secret ingredient. These ingredients work in tandem to clean, polish and break down dead organic debris on and around waterfalls, streams, plant pots and filtration systems.

ClarityMax™ also maintains crystal clear water for the long term.

ClarityMax™ is safe for use with fish, plants, birds or domestic animals that drink from the pond.

Application Rates

1 oz / 28 g	Treats up to 500 Gallons
2 oz / 56 g	Treats up to 1,000 Gallons
4 oz / 113 g	Treats up to 2,000 Gallons
8 oz / 226 g	Treats up to 4,000 Gallons

POND SIZE CALCULATION:

L x W x Avg. Depth x 7.5 = # of Gallons

Routine Application Rate: For a sparkling clean and clear pond apply ClarityMax™ once a week directly to the pond or filtration system.

Persistent Problem Application Rate: For persistent pond problems apply ClarityMax™ up to every 3 days at the prescribed rate until the problem is corrected. Then return to normal weekly application rate.

For Best Results: For ClarityMax™ to work at its maximum potential, pond water pH should be maintained between 6.5 and 8.5. Water temperature should be at least 50°F and dissolved oxygen levels should be above 3 ppm.

Product Notices: Pond may become cloudy after application, this is normal. Cloudiness should clear within 24-48 hours after application.

Failure to use as directed, or sudden changes in water conditions not consistent with label, may result in loss or injury to aquatic life. CrystalClear®, Inc. is not responsible for any loss of aquatic life.
