

WipeOut™ bacterial control is excellent for controlling gill diseases in pond and aquarium fish. Bacterial diseases generally results from fish stress due to adverse water quality conditions (pH, oxygen or temperature problems), habitat clean-outs, untreated abrasions or predators. WipeOut™ works extremely well on pond fish species such as koi and goldfish as well as on commonly found aquarium fish species. Wipeout™ is excellent for controlling and preventing bacteria infections such as finrot and ulcers.

**Warning Signs:** Common warning signs include noticeable decay of the dorsal fin, disinterest in feeding, abrasions, and/or ulcerous reddish purple lesions on the sides of the fish.

**Application Rates**

1 oz / 28 g Treats up to 600 Gallons | 3 oz / 85 g Treats up to 1,800 Gallons

2 oz / 56 g Treats up to 1,200 Gallons | 4 oz / 113 g Treats up to 2,400 Gallons

**Pond Size Calculation:** L x W x Average Depth x 7.5 = # of gallons

Routine Application Rate: Dissolve 1 oz / 28 g of WipeOut™ in dechlorinated water for every 600 gallons of water to be treated and add to the pond or aquarium for a 24 hour period. It is advisable to remove filter media prior to treatment for the 24 hour duration of treatment with WipeOut™.

**Persistent Problem Application Rate:** WipeOut™ can be reapplied within 36 hours of initial application. Should you want to avoid removing filter media a dip application can be performed in a separate holding tank or "hospital tank", do not reuse container for any other use.

**For Best Results:** Do not over apply WipeOut™ and follow directions thoroughly for maximum affect.

**Product Notices:** Only use the amount stated above. Overdosing will not increase affect. Do not use other chemicals while treating with this product.

This product is NOT for human consumption. If swallowed call a physician immediately and induce vomiting by administration of a tablespoon of salt in a glass of water. Repeat this process until vomit is clear. Failure to use as directed or changes in water conditions not consistent with label may result in loss or injury to aquatic life. CrystalClear® is not responsible for any loss of aquatic life.

**KEEP OUT OF REACH OF CHILDREN | STORE AT ROOM TEMPERATURE | SHELF LIFE: 3 YEARS | POND & AQUARIUM USE**
